***Council's standard recycling bin service is a fortnightly collection of a 240 litre bin. Council understands that, in some instances, a 240 litre recycling bin may not be suitable.**

- For residents who find the bin physically hard to manoeuvre or store, a 120 litre recycling bin can be made available. The collections will remain fortnightly. Not generating enough recyclables to fill a 240 litre bin each fortnight is not an acceptable reason for ordering a 120 litre bin.
- Residents who generate higher volumes of recyclables can order an additional 240 litre bin or swap the 240 litre bin for 360 litre bin. Please note the 360 litre bin can be very heavy when full- applicants should consider whether it would be more suitable to order a second 240 litre bin instead.
