# Supporting Families to Raise Children 0-12 years

Whitehorse City Council is committed to supporting children and their families to achieve the best start to life and to access opportunities to grow, learn, develop and thrive over the course of their childhood.

## About this Guide

Inside this guide you will find information about the services that Council delivers to children aged up to 12 years and their families, as well as other relevant services available in Whitehorse. There is also a number of information pages throughout this resource for families. The information is correct at the time of printing but is subject to change.

## Whitehorse Early Years Plan

The Whitehorse Early Years Plan (*Whitehorse: A City for all Children 2014 to 2018*) identifies a strong vision for children and their families and a set of core principles that underpin the vision. The plan focuses on four key areas:

- > Healthy, active and thriving children
- > Secure, supported and engaged families
- > Quality services for all children and families
- > Safe, welcoming and inclusive community for all children and families.

For further information about Council's *Municipal Early Years Plan 2014-2018* please visit [www.whitehorse.vic.gov.au/Children-Families-Youth.html](http://www.whitehorse.vic.gov.au/Children-Families-Youth.html)

## Child Friendly Cities

Whitehorse City Council voted to endorse the Victorian Charter for Child Friendly Cities in 2014.

The charter recognises the need for increasing children's participation in decision-making and creating child-friendly environments. Council supports the following principles:

- > Freedom for children to experience environments that consider their needs
- > Respect and dignity for children to express their individual opinions, and participate in and contribute to decisions about their communities and their wellbeing
- > Equitable access to supportive environments and services for children regardless of gender, ethnicity, religion or ability.

The charter is consistent with state, national and international protocols and embraces rights that are embedded in the Convention of the Rights of the Child (1990), the Chiba Declaration for a Child Friendly Asia Pacific (2009), UNICEF's Building Blocks for Developing a Child Friendly City (2004) and the Victorian Human Rights and Responsibilities Charter 2006.

# Protecting Children

Whitehorse Council is a Child Safe Organisation and committed to the safety and wellbeing of children who use its services.

## Whitehorse Council Commitments

### 1. Our commitment to children

- > We are committed to the safety and wellbeing of all children and young people who access any of our services.
- > We are committed to providing children and young people with positive and nurturing experiences.
- > We will support families and communities to promote children's development.
- > We will take action to ensure that children and young people are not exploited, abused or harmed during the time that they are involved with any of our services.
- > We will listen to children and young people and actively encourage them to talk to us and address any concerns that they raise with us.

### 2. Our commitment to families

- > We are committed to helping parents and carers to care for their children and young people.
- > We recognise that parents and carers will require varying levels and types of support at different points in their children's development.
- > We will offer guidance and assistance that builds on families' strengths, is sensitive to their cultural and religious beliefs and empowers them to adapt to the changing needs of their children.
- > We will be open and transparent with parents and carers when engaging with our services.

### 3. Our commitment to staff, students and volunteers

- > We are committed to providing all staff members and volunteers with the necessary support to enable them to fulfil their roles.
- > We have a management structure that supports and develops staff in their roles.
- > We are committed to providing all staff members and volunteers with regular supervision and professional development.
- > We will ensure that staff have access to a senior person to help them make decisions in relation to any action required to protect children and young people.

### 4. Our commitment to ensuring a child-safe organisation

- > We are committed to using best practice standards in the recruitment, screening and employment of staff and volunteers. We will work to create an environment in which children and young people are safe and feel safe.
- > We will ensure that we do not harm, abuse or exploit children and young people who are involved with our services.

#### Child FIRST – 1300 762 125

Child FIRST is a family services community-based intake and referral service. Child FIRST ensures that vulnerable children, young people and their families are effectively linked to relevant services, including Child Protection.

#### Child Protection

Child Protection is a statutory child protection service provided by the Department of Human Services, which is able to intervene to protect children and young people at risk of significant harm.

#### East Division Intake – 1300 360 391

East Division has a child protection intake located at DHHS Box Hill which covers Whitehorse.

# Council Information and Resources

## Parent Resource Officer

Whitehorse City Council has a dedicated Parent Resource Officer to support the parents, grandparents and carers of Whitehorse.

The Parent Resource Officer's role is to ensure information and support is easily accessible to parents, grandparents and carers, through a variety of ways including, this resource, print media, online apps, parenting information forums, and websites.

The Parent Resource Officer can also be contacted for more information on any topic in this resource or other parenting information.

Email: [parentresource@whitehorse.vic.gov.au](mailto:parentresource@whitehorse.vic.gov.au) or call 9262 6175.

## FlexiBuzz

Whitehorse Council uses the app FlexiBuzz (previously Tiqbiz) to communicate with families living in the City of Whitehorse.

- > Relevant Whitehorse family events and programs
- > Parenting information forums
- > Maternal and Child Health information
- > Immunisation information
- > Parenting youth information
- > Plus much more.

As a parent, grandparent or carer you are able to opt into the categories that suit you. FlexiBuzz is free to download and easy to use. See instructions right:

### 1. Download FlexiBuzz for your phone and tablet

Search for **FlexiBuzz** in your app store.

**For Apple:** Select 'allow' notifications.

Computer and Windows mobile device users can visit [www.flexibuzz.com](http://www.flexibuzz.com) to register/login

### 2. Find and tick

#### Log-in

Open FlexiBuzz and register/login

#### Search

Select the 'Search' icon and type in Whitehorse City Council and then select.

#### Add

Click on the categories that apply to you and click the 'Add' icon.

#### Return to search

Click the back arrow to return to search.

#### Home

Click the 'Home' icon to view notifications.

### 3. Stay informed

## Parenting Information Forum Program

Council sponsors the successful Parenting Information Forum program for Whitehorse parents, grandparents and carers.

To deliver the Parenting Information Forum Program, Council engages a range of guest speakers to reflect the diverse range of parenting approaches that individuals, communities and cultures use. The program aims to achieve great outcomes for families, children and young people because effective parenting is essential for a child's lifelong development and overall wellbeing. By extension, Whitehorse Council believes that the community should support parents to develop key parenting skills and to relieve any isolation they might be experiencing.

Topics for forums are developed from feedback received during the evaluation process and through consultations undertaken for Council's Municipal Early Years and Municipal Youth Plans.

For further information, including the calendar, please visit [www.whitehorse.vic.gov.au/Parenting-Information-Forum-Program.html](http://www.whitehorse.vic.gov.au/Parenting-Information-Forum-Program.html)

## Whitehorse Maps

Through Whitehorse City Council's website, you can search, view and explore maps of the City of Whitehorse.

By simply typing in your address or current location, you can search for nearby parks, playgrounds, arts and culture activities, playgroups, schools and much more.

To use Whitehorse Maps please visit [www.whitehorse.vic.gov.au/Whitehorse-Maps.html](http://www.whitehorse.vic.gov.au/Whitehorse-Maps.html)

# Council's Support Services for Families

## Maternal and Child Health Service

The arrival of a new baby brings joy as well as new challenges and significant changes to a family.

To assist during this time of change, Council provides a free comprehensive Maternal and Child Health Service for families with a new baby. The service provides guidance and information to support the healthy development of children from birth up to five years, including:

- > Breastfeeding
- > Child health and development
- > Infant and child nutrition
- > Maternal health and wellbeing
- > Parenting skills
- > Home safety for children
- > Immunisation
- > Relationships (including your relationship with your baby)
- > Local support services.

The centre-based service is staffed by specialist nurses with general nursing, midwifery and maternal and child health qualifications. The nurses form an integral part of the community and are often the first point of contact for new families once discharged from hospital.

Once your baby is born, the hospital will contact Council and a Maternal and Child Health nurse will then call you to arrange your first home visit. The service also facilitates new parent groups so you are able to meet other local families with new babies.

Whitehorse City Council also offers a free lactation service if you are having difficulties feeding your baby.

The Enhanced Maternal and Child Health Service provides extra support for families who present with risk factors such as unemployment, homelessness, disability, drug and alcohol and/or mental health issues.

The Maternal and Child Health Service offers a very important 3 ½ year visit for children in preparation for starting kindergarten and prep. At this visit you can discuss any concerns you have, including physical and emotional health, growth and development, speech, nutrition, safety, care of teeth, kindergarten information and immunisation. The Maternal and Child Health Nurse will also perform a vision test on your child. Children four years and over are not eligible for this check at a Maternal and Child Health Service, however, you can still have this check through your GP.

Whitehorse City Council has six Maternal and Child Health Family Centres across the municipality:

**Burgess Family Centre**

15 Barwon Street, Box Hill North

---

Phone: 9898 3611

---

**Box Hill South Family Centre**

Cnr Riversdale Road and Station Street, Box Hill South

---

Phone: 9889 8900

---

**Whitehorse Primary School**

70-86 Junction Road, Blackburn North

---

Phone: 9262 6145 or 9262 6137

---

**Forest Hill Family Centre**

35 Bennett Street, Forest Hill

---

Phone: 9262 6135 or 9262 6138

---

**Mitcham Family Centre**

15 Brunswick Street, Mitcham

---

Phone: 9262 6195 or 9262 6198 or 9262 6170

---

**Vermont South Family Centre**

Karobran Drive, Vermont South

---

Phone: 9262 6151 or 9262 6152

---

The 24-hour Maternal and Child Health telephone line is available if you are unable to contact your nurse: **13 22 29**

If your child is unwell please contact your GP or nearest medical centre.

# National child restraint laws

There are laws for the type of restraints children of a certain age need to travel in.

- > **birth to six months** rearward-facing restraint
- > **six months to four years** rearward or forward-facing restraint
- > **four to seven years** forward facing restraint or booster seat
- > **older than seven years** booster seat or adult seatbelt

The restraint types overlap the age ranges. For example, the rearward-facing restraint must be used from birth to six months, and it may be used from six months to four years (or you can use a forward-facing restraint).

While the law specifies the minimum, **it's safest to only move your child to the next type of restraint once they outgrow their current restraint.** For example, at six months you can move your child from a rearward-facing restraint to a forward-facing restraint. However, most children will not outgrow the rearward-facing restraint until around 12 months. It is safer to keep them in the rearward-facing restraint until they have outgrown it.

- > **For a child in a booster seat or an adult seatbelt, use a seating position with a lap-sash (lap and shoulder) belt** in preference to one with a lap-only belt.
- > **All child restraints and booster seats must be installed correctly** and the child strapped in correctly according to the manufacturer's instructions:
  - Always use a top tether strap for all rearward-facing child restraints, forward-facing child restraints and booster seats that have them.
  - Always thread the seatbelt through the correct path (follow colour coding available for newer restraints).
  - Ensure there is no slack or looseness in any part of the system. Check the harness straps around the child, the top tether, the seatbelt anchoring the restraint to the vehicle, and the seatbelt used by a child in a booster seat.
  - Ensure that the seatbelt is buckled before each trip.
- > **Children 12 years of age and under are safest in the rear seat.**
- > **Seatbelts should never be used with the sash belt under the child's arm or behind the child's back,** whether they are being used alone or with a booster seat.
- > **Regularly check that child restraints are correctly installed and that the restraint is adjusted properly for the child's size according to the restraint user's manual.** Using a restraint-fitting service will help ensure that everything is used correctly and that your child is as safe as possible.

Kidsafe Victoria's 'Find a Fitter' listing provides you with easy access to details of credible, experienced child-restraint fitters across Victoria. These fitters can guide you through the process of fitting and adjusting child restraints to assist you to ensure your child restraints are correctly installed and your children are travelling as safely as possible.

To find a fitter near you please visit Kidsafe [kidsafevic.com.au/find-a-fitter](https://kidsafevic.com.au/find-a-fitter)

Whitehorse City Council runs one or two free child restraint fitting sessions per year. For further information on when the next session is scheduled please contact Chris Hui on 9262 6134 or [roadsafety@whitehorse.vic.gov.au](mailto:roadsafety@whitehorse.vic.gov.au)

# Immunisation

Whitehorse City Council provides free public immunisation sessions every month across four venues for infants, toddlers, pre-school children and school-aged students.

Vaccine-preventable diseases such as poliomyelitis, measles, mumps, rubella, tetanus, diphtheria, whooping cough, chicken pox, heamophilus influenza B (Hib), hepatitis B, meningococcal group C, pneumococcal and rotavirus are, unfortunately, still common in our community. These diseases can lead to debilitating illnesses and, in extreme cases, death. Immunisation against these diseases is the safest and most effective means of providing protection to a child.

For the current immunisation schedule, venues, dates and times please visit this webpage: [www.whitehorse.vic.gov.au/Immunisation.html](http://www.whitehorse.vic.gov.au/Immunisation.html)

## Overseas Vaccinations

If your child has been vaccinated overseas you are required to provide a copy of the vaccination records to Council prior to attending a public immunisation session. You will need to obtain a formal translation if the records are not in English. Please contact a translations service such as AMES (9890 0425) if you require a translation.

## No Jab No Play

From 1 January 2016 all parents/guardians seeking to enroll their child at an early childhood service in Victoria must provide evidence that their child:

- > is fully vaccinated for their age, or
- > is on a recognised catch-up schedule if their child has fallen behind with their vaccinations, or
- > has a medical reason not to be vaccinated.

Children who were vaccinated overseas must have their vaccine records assessed and will be offered vaccination as required.

The 'No Jab No Play' policy applies to all early childhood education and care services in Victoria that provide long day care, kindergarten, occasional care and/or family day care. For further information please visit [www.health.vic.gov.au](http://www.health.vic.gov.au)

## No Jab No Pay

From 1 January 2016 parents who do not fully immunise their children (up to 19 years of age) will cease to be eligible for the Child Care Benefit, Child Care Rebate and the Family Tax Benefit Part A end of year supplement (family assistance payments).

Children with medical contraindications or natural immunity for certain diseases will continue to be exempt from the requirements. Please note that conscientious objection and vaccination objection on non-medical grounds will no longer be a valid exemption from immunisation requirements. For further information please visit [immunise.health.gov.au](http://immunise.health.gov.au)

## Immunisation History Statements

To view your child's Immunisation History Statement go to myGov and sign in to your Medicare online account. If you do not have a myGov account, you can create one and then link it to your Medicare account or use the Express Plus Medicare mobile app. If you don't have the app, you can download it to your smart phone or tablet.

If you are unable to access the immunisation history statement online, you can obtain a copy by calling the Immunisation Register on 1800 653 809.

# Cold and Flu

Melbourne's wintery weather brings with it an increase in cold and flu symptoms for families.

Colds are very common. According to the Federal Government's Healthdirect website ([healthdirect.gov.au](http://healthdirect.gov.au)) children can get five to ten colds a year, while adults can get two to four colds each year. Colds affect the nose, throat and upper airways and common symptoms include coughing, fever, sore throat, sneezing, blocked or runny nose and general congestion. Colds are caused by about 200 different viruses and there is no vaccine to prevent it.

The flu is a viral infection affecting your nose, throat and sometimes your lungs. Typical symptoms of flu include fever, sore throat and muscle aches. Yearly vaccination is the single most effective way of preventing the spread of flu in the community. It is available from April each year from doctors and other vaccination providers. The flu vaccine is available free under the National Immunisation Program for those people who have the greatest risk of becoming severely ill from flu. Flu vaccines are age-specific, so parents should tell their doctor the age of their child before vaccinating.

For more information about the seasonal influenza vaccine and who is eligible for the free vaccine, visit [immunise.health.gov.au](http://immunise.health.gov.au) or call the Immunise Australia Information line on 1800 671 811.

Some important steps to prevent the spread of cold and flu:

- > If you or your child has a cold or flu the best thing to do is to stay at home.
- > If your child has symptoms of a cold or flu do not take them places where they will come into contact with other children or babies such as school, child care centres, playgroups, kindergarten, immunisation sessions or maternal and child health services.
- > If you have to be around people make sure tissues are disposed of properly and hands are washed with soap regularly, particularly after touching your nose or mouth or preparing food.
- > Avoid sharing cups, plates and cutlery.
- > Regularly clean surfaces if someone is sick in the family to get rid of as many germs as possible.

## Whitehorse Early Learning Service (WELS) Childcare and Kindergarten

Choosing the right early learning service is an important decision for families.

Your decision will depend on your family's needs and the environment with which you and your child will feel most comfortable. Whitehorse Early Learning Service (WELS) provides education and care environments that are stimulating, engaging and enhance children's learning and development.

WELS offers long day care to children aged from six weeks to five years. WELS follows a play based and emergent curriculum. Staff design a nutritional seasonal menu which is freshly prepared each day.

The dedicated funded four-year-old kindergarten program involves children and teacher initiated experiences within a flexible program using both the indoor and outdoor spaces and resources. Qualified and experienced educators and early childhood teachers develop thoughtful relationships with children and families. This enables educators to extend on all children's interests and identify learning opportunities.

You are encouraged to contact the centres directly to organise a time to meet with the director and to have a look around. If you would then like to go on the waitlist you can email [ecs@whitehorse.vic.gov.au](mailto:ecs@whitehorse.vic.gov.au) or call 9262 6476 and request a waitlist form.

## Other Care Options for Children

---

### Private Childcare Providers

As well as Council childcare centres there are a number of private childcare options in Whitehorse.

Centres usually operate between 7am and 6pm but this can vary. For individual opening times and other information please contact the centres directly.

The Australian Government provides families with financial assistance to help with the cost of approved childcare. For more information please visit:  
[mychild.gov.au](http://mychild.gov.au)

## Family Day Care Providers

Family Day Care provides families with flexible home-based education and care for their children. An educator provides care in their home for a small number of children (not more than the maximum allowed, which includes their own children), in accordance with the National Law and National Regulations.

The majority of Family Day Care services are approved child care services. This means that families using the service may be eligible for government assistance.

### **Bambini Family Day Care and In-Home Care**

## Libraries

Reading books to babies and children can help encourage curiosity, spark their imagination and assist them in becoming familiar with sounds and words. Your local library has a lot to offer families. Taking your child to the library and letting them choose their books can be a fun adventure for both of you.

Whitehorse Manningham Libraries offers a range of story times and activities for children of all ages at local branches in Blackburn, Box Hill, Nunawading and Vermont South. For more information and story time sessions, visit [www.wml.vic.gov.au](http://www.wml.vic.gov.au)

### 1000 books before School

1000 Books Before School is a free program from Whitehorse Manningham Libraries to encourage parents to read and share books with their children from a young age. Early literacy skills are essential building blocks for lifelong learning beyond primary and high school.

Families must be a Whitehorse Manningham library member to join the 1000 Books Before School program. Every time you share a book with your child, mark or colour a space on their jungle journal. When they reach a milestone, bring the journal into a Whitehorse Manningham Library branch and they will give you a special sticker! The program finishes when they reach 1000 books, or your child starts school.

## Playgroups

Playgroups connect families to their local community and provide an opportunity for children to play in an environment that stimulates their imagination, develops their language and promotes social interactions with other children. Parents, grandparents and carers also get to enjoy a social and supportive environment.

Most playgroups meet regularly for a couple of hours at a time, in venues such as family centres, halls, neighbourhood and community houses, schools and kindergartens.

Whitehorse has a diverse range of playgroups catering for everyone's needs. For an up-to-date list of Whitehorse playgroups please visit [whitehorse.vic.gov.au/Parent-Resources.html](http://whitehorse.vic.gov.au/Parent-Resources.html) or contact Council's Parent Resource Officer on 9262 6175 for a playgroup flyer.

## Toy Libraries

For a small membership fee, toy libraries allow families to borrow from a vast array of toys, books and puzzles that have been specifically designed to support skill development and imagination in children. Toy libraries aim to support families and encourage togetherness and quality time spent engaging in play. Whitehorse is very fortunate to have three toy libraries offering an array of choice for families.

# Children Left Unattended in Cars

The thought of going into the shop or petrol station and leaving the children in the car for a few minutes might be tempting for a parent or carer.

However leaving children unattended in a car is dangerous, particularly on a hot day. It could result in serious injury or even death as the temperature inside a car can reach dangerous levels very quickly. Seventy-five per cent of the temperature rise occurs within the first five minutes of closing the doors and leaving the car.

## SAFETY TIPS FROM KIDSAFE

- > If you have to leave the car, even to run a quick errand – take the children with you.
- > Never use the car as a substitute 'babysitter'.
- > Never leave children in a car without adult supervision for any length of time, not even a minute!
- > Lock cars and secure keys when at home to prevent children playing inside the car.
- > Make 'look before you leave' a routine whenever you get out of the car.
- > When a child is missing, in addition to checking backyard pools and any other bodies of water, be sure to check inside the car and the boot of any nearby vehicles.
- > Never leave valuables in the car, including your kids!

Young children are more sensitive to heat than adults as their body temperature can rise three to five times faster, putting them at greater risk of heatstroke and other health risks.

In Victoria, it is illegal to leave a child unattended in a vehicle under the *Children, Youth and Families Act (2005)*.

The penalties for leaving a child unattended in a car in Victoria include:

- > A fine (currently \$3,690), or
- > A maximum of six months jail

If you notice a child has been left unattended in a vehicle call 000 and ask for the fire brigade. Give the location, the vehicle registration number and the approximate age and condition of the child.

For further information please visit Kidsafe Victoria at: [www.kidsafevic.com.au](http://www.kidsafevic.com.au)

**#SURVIVETHEHEAT**

# Our valuables should never be left in the car

On a warm day, the temperature inside a parked car can be 20°C to 30°C hotter than outside. The impact of heat on a child's body is almost immediate and can be fatal. So keep your children with you and safely out of the heat.

# Services and Things to Do in Whitehorse

## Recreation and Leisure Centres

### Aqualink Box Hill

Surrey Drive, Box Hill  
Phone: 9898 2099

[aqualink.com.au](http://aqualink.com.au)

Kids' activities include:

- > Swimming lessons
- > School holiday chill zone
- > School holiday activities at the crèche
- > Crèche and occasional care

### Aqualink Nunawading

Fraser Place, Forest Hill  
Phone: 9878 4576

[aqualink.com.au](http://aqualink.com.au)

Kids' activities include:

- > Swimming lessons
- > School holiday chill zone
- > Crèche and occasional care

### Sportlink Vermont South

2 Hanover Road, Vermont South  
Phone: 9847 7111

[sportlink.org.au](http://sportlink.org.au)

Kids' activities include:

- > Junior sports/activities (badminton, basketball, dance, futsal, preschool sports, netball, table tennis)
- > School holiday programs in conjunction with Kelly Sports

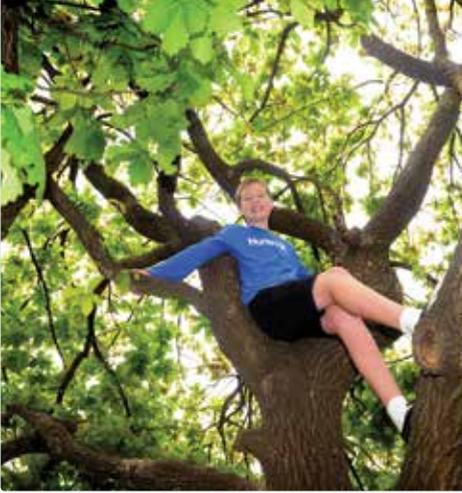

## Aqualink

Whitehorse City Council owns and runs three recreation and leisure centres: Aqualink Box Hill, Aqualink Nunawading and Sportslink (a multipurpose sports facility). The centres provide great facilities and a wide range of health and fitness programs for the whole family.

## Parks and Playgrounds

Whitehorse residents are very fortunate to have access to over 300 parks. Families can enjoy BBQ facilities, picnic areas, playground equipment, walking and cycling tracks, dog off-lead areas, wetlands and lakes, sites of historical significance, sculptures, indigenous plants and animals, and a mix of formal gardens and bushland. To search for a park near you go to Whitehorse Maps at [www.whitehorse.vic.gov.au/Whitehorse-Maps.html](http://www.whitehorse.vic.gov.au/Whitehorse-Maps.html)

Council also maintains 170 playgrounds throughout the City of Whitehorse for the enjoyment of all children and their families. Council recognises that play is an important part of childhood and strives to provide quality, safe and accessible play opportunities. To search for a playground near you go to Whitehorse Maps at [www.whitehorse.vic.gov.au/Whitehorse-Maps.html](http://www.whitehorse.vic.gov.au/Whitehorse-Maps.html)

## Whitehorse Centre

The Whitehorse Centre presents a range of diverse programs each year including plays, musicals, opera, ballet, shows for children, works by renowned Australian playwrights as well as new productions by emerging writers and performing arts companies. Each school holidays there are specific shows just for children and their families.

# Water Safety

Drowning is the most common cause of preventable death for children under five years of age in Victoria.

When the weather starts to warm up each year, Australian families and children are naturally drawn to the water for summer fun and relief from the heat. Whether it's the beach, the local swimming pool or a backyard pool, it's essential that parents, grandparents and carers remain vigilant while supervising children around water.

## Tips for keeping kids safe around water

- > Never take your eyes off children around water.
- > Do not expect older children to look after younger siblings. Children can be easily distracted.
- > For children aged five and under, remain within arm's reach so that you can quickly get to your child if something goes wrong.
- > Take your children with you if you leave the water area.

## Know what to do

- > As well as teaching children how to swim, water familiarisation lessons can help children to understand water safety. Both Aqualink Box Hill and Aqualink Nunawading offer Learn to Swim programs. For further information [www.aqualink.com.au](http://www.aqualink.com.au)
- > Enrol in a resuscitation course and update your skills annually so you are able to respond in case of an emergency.

## Home swimming pools

- > All swimming pools and spas capable of holding more than 300mm (30cm) of water are legally required to have suitable child-resistant safety barriers.
- > Remove hazards such as pot plants and chairs well away from pool fences so that children can't climb on to them and over the fence.
- > Do not prop any doors or gates open that allow children access to a body of water.
- > Resuscitation posters are a good reminder to keep around pools and spas.

## Your child, your focus

Aqualink Nunawading and Aqualink Box Hill are accredited Watch Around Water facilities. That means that:

**Children under five** must be constantly supervised and remain within arm's reach. If your child is in the water, you must be in the water with them.

**Children five to 10 years** must be accompanied into Aqualink and constantly supervised by a parent/carer. You must have a clear view of your child at all times.

# Whitehorse Active Kids

Kids love being active! They enjoy movement and being physical however, with an increase in modern technology, there is the risk that TV and other screen time is becoming a barrier to children being as active as they should be.

The best way to get children engaged in more physical activity is increasing activity as a family. There are many opportunities in Whitehorse for families to be more active. Being active as a family has enormous health and wellbeing benefits, particularly for children. Parents are a child's first role model so showing children that physical activity is a valuable part of life is important.

The federal government's guidelines recommend that children aged:

- > birth-one years should have some physical activity, like floor play, each day
- > one-five years should be physically active for at least three hours each day, with activity spread across the day
- > five-18 years should do at least one hour of **moderate to vigorous** physical activity each day.

Physical activity doesn't have to be done all at once, or even in big blocks. A child can do it in small blocks of time throughout the day. (Department of Health)

Physical activity doesn't need to be sports based or competitive and doesn't have to cost families a lot of money. Examples are walking, running, climbing, dancing, obstacle courses, active games, heading to the many Whitehorse parks or playgrounds, throwing a ball, bouncing, riding, swimming and many more.

Of course, if money and time permit, there are many activities and team sports that are non-competitive for preschoolers and school-aged children. These include swimming lessons, gymnastics, junior sports, dancing, after school and school holiday programs.

'Moderate physical activity' includes activities that get your child gently huffing and puffing. They're about as intense as a quick walk.

'Vigorous physical activity' includes activities that get your child huffing and puffing a lot, and sweating. This could be running games or riding a bike fast.

## Services for Families with Special Needs

There are many specialist services available for families with special needs. Children who have developmental delays or who have a disability may require specialised support, particularly in the early years, to assist them to play and engage in the many learning and development opportunities surrounding them. If you have any concerns about your child please speak with your Maternal and Child Health nurse or GP who will suggest specialist support services and resources such as those listed below.

### **Association for Children with a Disability**

Phone: 1800 654 013

[acd.org.au](http://acd.org.au)

### **RIDE – Respite in the East**

Phone: 1300 658 873

### **National Disability Insurance Scheme (NDIS)**

Phone: 1800 800 110

[ndis.gov.au](http://ndis.gov.au)

NDIS is a new way of providing support for Australians with a disability, their families and carers. It will come into effect fully in November 2017 in Whitehorse.

# Grandparents

Whitehorse City Council recognises the important role grandparents play in families and in the wider community.

They hold family traditions and stories and are essential teachers of our next generation. Grandparents increasingly help out with school pick-ups and care of school-aged children, as well as being providers of childcare for babies and toddlers when parents return to the workforce.

Whitehorse has a number of playgroups that welcome grandparents and their grandchildren, as well as two grandparent specific playgroups:

## **Koonung Cottage Grandparents Playgroup**

**Where:** Koonung Cottage Community House, 109 Koonung Road, Blackburn North

**Further information:** 9878 6632 or [info@koonungcottage.org.au](mailto:info@koonungcottage.org.au)

---

[koonungcottage.org.au](http://koonungcottage.org.au)

---

## **Chinese Grandparents Playgroup**

**Where:** 19 Brunswick Rd, Mitcham

**Further information:** 0435 316 118 or [ahuang@miceastmelb.com.au](mailto:ahuang@miceastmelb.com.au)

## Kinship Care

Kinship care is the care provided by relatives or a member of a child's social network when a child cannot live with their parents.

The Victorian Government funds 29 metropolitan and regionally-based kinship care services to improve the support available for children growing up in kinship care. These community-based kinship care services provide a range of cultural and support services for children in kinship care and their families close to where they live.

These include:

- > information and advice
- > family support services (available to all kinship carers)
- > intensive support services for the most vulnerable children placed in kinship care as a result of child protection involvement.

Whitehorse's local kinship care provider is located at Anglicare Victoria's Box Hill office. You can contact the Kinship Family Services Case Manager on (03) 9896 6322.

For further information on this forum and other support available for grandparents in Whitehorse please visit [www.whitehorse.vic.gov.au/Grandparent-Support-and-Resources.html](http://www.whitehorse.vic.gov.au/Grandparent-Support-and-Resources.html)

## Education Options in Whitehorse

### Kindergartens/Pre-schools

Children go to kindergarten in the year before school, usually when they are four years old. However, some services and centres also offer kindergarten programs for three-year-old children.

You can enrol your child in a funded kindergarten program in a variety of settings, including long day care centres and community kindergartens.

The Whitehorse Pre-school Association maintains a central application scheme for the majority of three and four-year-old sessional kindergarten/pre-schools in the City of Whitehorse.

For more information and how to enrol your child for a kindergarten/Pre-school place please visit the Whitehorse Pre-school Association website at [wpsa.com.au](http://wpsa.com.au)

### WELS Kindergartens

#### **Blackburn Children's Services Centre**

Central Road, Blackburn

#### **Central Box Hill Children's Services Centre**

517 Station Street, Box Hill

#### **Lucknow Street Children's Services Centre**

37 Lucknow Street, Mitcham

#### **Vermont South Children's Services Centre**

Corner Karobran Drive and Livingstone Road, Vermont

#### **Wattle Park Children's Services Centre**

25 Livingstone Close, Burwood

If you wish to enrol your child in Council's Whitehorse Early Learning Service (WELS) Kindergarten Program please call 9262 6476.

## Primary Schools

Starting primary school is a big step for you and your child, and can be both challenging and exciting. To make your child's transition from kindergarten to primary school a happy and positive experience, it is important to consider which school will best benefit your child's learning and development.

Some things you might want to consider when choosing a primary school for your child:

- > How far do you want to travel and is the school reasonably close to home and/or work?
- > Will the school be able to cater for your child's needs and interests?
- > What facilities do they offer and are you comfortable with the 'feel' of the school?
- > Will the teachers and the school curriculum support all aspects of your child's development, including social, emotional, physical and cognitive needs?
- > Does the school's policy on homework and discipline reflect your own values and expectations?
- > Does the school work in partnership with families?

Council runs a preparing for school parenting information forum in March of each year. Details can be found either in *Whitehorse News* or on Council's website close to that time. For more information on other support in the area please contact Council's Parent Resource Officer.

## Outside School Hours Care (OSHC)

Outside School Hours Care centres provide care for primary-school-aged children before and after school (7.30am-9am and 3pm-6pm), during school holidays and on pupil-free days.

Centres are usually located on primary school sites or a facility close by. Speak to your child's primary school about their outside-school-hours care program.

The majority of Outside School Hours Care centres are approved child care services. This means that families using the service may be eligible for government assistance. Visit [mychild.gov.au](http://mychild.gov.au) for further information.

# Family Violence

One in four women in Australia has experienced violence from an intimate partner. Of those women who experience violence, more than half have children in their care.

Everyone has the right to feel safe and free of fear in their own home. Children's 'witnessing' of being exposed to domestic violence has been increasingly recognised as a form of child abuse, both in Australia and internationally. Preventing violence against women and their children by promoting gender equality and respectful and non-violent relationships benefits the whole community, including men. When a partner (or ex-partner) or family member abuses, threatens to abuse or tries to control someone — it's family violence. Family violence includes:

- > Pushing, shoving, slapping, pinching, punching or any other physical violence
- > Stopping their partner from seeing family or friends
- > Threatening to hurt their (ex) partner, their children, family members or a pet
- > Making their partner feel scared to say no
- > Smashing things or locking family members in the house
- > Constantly checking the whereabouts and activities of their (ex) partner
- > Name calling or put downs
- > Trying to damage the relationship between their (ex) partner and their children
- > Controlling all the spending in the household.

Children growing up in a 'climate of fear' may feel frightened, helpless or even blame themselves. Children and babies experiencing family violence might:

- > Feel unwell with stomach cramps or headaches
- > Have trouble concentrating
- > Have difficulty with friendships
- > Avoid eye contact
- > 'Act out' or withdraw
- > Start to use violence to give them control over others.

Remember you are not to blame. If you or your children are in immediate danger call the police on 000. You may also want to contact a family violence service to discuss your options:

- > Safe Steps Family Violence Response (24hrs) 1800 015 188
- > Eastern Domestic Violence Service 9259 4200

The Men's Referral Service (MRS) offers anonymous and confidential telephone counselling, information and referrals to support men experiencing violence themselves or to help men stop using violent and controlling behaviour. If you are concerned about your behaviour, or your behaviour has brought you into contact with the police or courts and you're facing issues such as an intervention order or access or custody restrictions you can get help by calling 1300 766 491 or visiting [www.mrs.org.au](http://www.mrs.org.au)

This information was sourced from Domestic Violence Resource Centre Victoria [www.dvrcv.org.au](http://www.dvrcv.org.au), Safe Steps [www.safesteps.org.au](http://www.safesteps.org.au) and Men's Referral Service.

# Health and Medical Services

---

## Local Hospitals

### Box Hill Public Hospital

---

## Community Health Services

Community health services provide universal access to services as well as targeted services for vulnerable population groups. They sit alongside general practice and privately-funded services to make up the primary health sector in Victoria. Services include children's allied health services such as psychology, occupational therapy, speech pathology, counselling services, dental services and other groups and programs.

## Finding a Health Professional

Finding a health professional that you trust and connect with has a positive long-term impact on health. The National Health Services Directory is a joint initiative of all Australian governments, delivered by Healthdirect Australia, to enable access to reliable and consistent information about health services. To find a health service including general practice (including bulk billing), pharmacy, physiotherapy, travel vaccinations and more please visit [www.nhsd.com.au](http://www.nhsd.com.au)

# Dental Health

Establishing good oral health routines at an early age is important for children's dental health and overall wellbeing.

Good oral health habits such as regular brushing and healthy eating can prevent tooth decay and its many related complications. Poor oral health in children is a strong predictor of poor oral health in adulthood. And, poor oral health in adulthood has a strong relationship with poor general health.

## Some tips for good oral health:

Babies' gums can be cleaned and cared for before their first tooth even appears. A damp face washer may be used to gently wipe their gums, cheeks and tongue after each feeding.

As soon as teeth arrive, you can clean them twice a day (in the morning after eating and before bed). Again, with a clean, damp face washer wrapped around your finger, wipe the front and back of each of your baby's teeth, as well as their gums, cheeks and tongue.

Once a child is 18 months old, you can use a pea-sized amount of low-fluoride, age appropriate toothpaste on a toothbrush. Your child might want to start helping to clean their own teeth but they will need your help and supervision until they are about 10 years old.

Regular tooth brushing alone isn't a guarantee against tooth decay, diet is also very important. Foods that include whole grains, dairy and fruits and vegetables are best for teeth. Try to avoid "sometimes foods" that contain high levels of sugar or acid. "Sometimes foods" should not be consumed more than once per week as they hold no nutritional value for your child. Water or milk are the best drinks for healthy teeth.

To further ensure your child's teeth and gums are healthy, it's a good idea to visit the dentist by the time they are two or three years old.

All children up to 12 years of age can use the Public Dental Service. It is free for health care card holders and low cost for children without concession cards. Carrington Health provides the Public Dental Service in Whitehorse:

### Carrington Health

2/43 Carrington Road, Box Hill

Phone: 9897 1792

between 8.30am-5pm, Monday to Friday

---
