Care Management

Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. Every Home Care Package, including those being self-managed will require some level of care management.

Approach to care management	We offer individually planned and coordinated packages of home care services with a view to facilitating individualised and consumer directed care support arrangements. This means that the care planning process will be driven by you in partnership with us. These services may be provided in different ways including face-to-face or via phone or email.
