Statement of Significance:

Tree #1 is located out the front of the property. It contributes directly to the streetscape and is visible from Beaumont Street and other surrounding streets. It is one of the largest trees within the area and is a landmark. There is some minor damage to the footpath however the significance of this tree outweighs this damage and justifies the expense required to occasionally repair the footpath. Tree #1 is worthy of inclusion due to its size and impact on the landscape. Trees #2 & 3 are in the rear. They are mature oaks of good health and structure with a wide canopy spread. These are original trees from the orchard and create good canopy cover and contribute to the overall amenity of the landscape. They are also worthy of inclusion.

Curious growth form	*	Outstanding size		Outstanding Example of the Species		Unique environmental contribution
Unique Location/Context	*	Aesthetic Value		Aboriginal Culture	*	Good example of indigenous species

Statement of Significance:

This tree is located in the front of the property. It is of reasonably good health, structure and form. There is minor decay in the main stem but this is not considered a significant issue and is typical for a tree of this size. The majority of the canopy overhangs the neighbouring dwelling. This tree should be included in the Register due to its large size, contribution to the wider landscape and its species. Concerns over limb drop could be lessened by weight reduction pruning of limbs over the dwellings and should reduce the hazard to an acceptable level.
